FEBRUARY 26, 1915 NORWAY, MAINE.

VOLUME XLVI.

SETH W. FIFE, Fryeburg, Maine.

Seth Wyman Fife passed away January 14th, at his late home in Fryeburg, at the age of 68 years.

Mr. Fife was the son of Moses and Eliza W. Fife and was born in North Chatham, N. H., Dec. 10, 1846. He attended Fryeburg Academy and was a graduate of Harvard Law School.

After graduating he returned to Fryeburg where he has practiced law successfully for many years. Mr. Fife was well known throughout Oxford County. He was a member of Carrall Co. bar in New Hampshire, and of Oxford Co. bar. He was also known as an owner of an agricultural and implement business.

Mr. Fife has held the office of Trial Justice, Notary Public, Justice of the Peace, Disclosure Commissioner and at one time was Superintendent of the Schools of Fryeburg. He was a Mason

and a member of the Chapter. In politics he was a republican.

He was a man of genial disposition, ever ready to give a helping hand to any one, public spirited, a lover of children and in turn a favorite with them.

For years he was Supt. and manager of the Fryeburg Horse Railroad, which is the only one of that kind east of New York.

In 1874, Mr. Fife was united in marriage to Eliza G. Farrington at Fryeburg, who survives him. He is also survived by one son, Fred R. Fife, of Augusta.

The funeral was held at his late residence Sunday, Jan. 17th, attended by Rev. J. L. Carruthers. The bearers were nephews of the deceased, Floyd, Frank and Charlie Stevens, and Noyes A. Fife. Interment was in the family lot at Fryeburg.

Soldiers' Monument Fund.

A regular meeting of the W. R. C. was held in the Woodman Hall on Thursday afternoon, Feb. 18th, with a good attendance of both officers and members. At this meeting the Corps referred to the subject of the annual town meeting dinner.

It was decided to place the proceeds of the dinner in the Soldiers' Monument Fund. Hence, a dinner given for the benefit of so worthy an object should receive large patronage from the town's people.

The dinner will be in charge of the executive committee, Jennie Richardson, chairman. The menu will consist of baked beans and brown bread, assorted pickles, and the usual pastry fixings. The committee in charge of the dinner will endeavor to serve well all who attend.

At the close of the regular meeting a very impressive memorial service was held in memory of departed Brother, Comrade Samuel H. Legrow. The altar was covered with the National colors, with black and white bunting tastefully draped about the sides. A bouquet of flowers rested upon the Holy Bible.

The ever beautiful selections "Nearer My God to Thee," and "Blest be the Tie that Binds," and "Rock of Ages," were sweetly sung by Mrs. R. J. Bruce, Berenice Nash, accompanist.

Edwin Hall Allen.

Edwin Hall Allen died at the C. M. G. Hospital at Lewiston, Feb. 17th, at 9.30 p. m., of tubercular bone, caused by an injury of the leg. His age was 48 years, 9 months and 17 days.

He was born in Denmark, April 30, 1866, the son of Alphonse and Ellen M. (Whidden) Allen. His early education was received in Denmark, but he finished his school education in Bridgton. He has lived during the last thirty years in Bridgton, Norway, North Waterford and Auburn. He was foreman for E. F. Spinney & Co., at Norway for many years, and after moving to Auburn, foreman for Wise & Cooper.

Religiously he was a Methodist. He was a member of the Masons and Commandery, Odd Fellows, Wilder Encampment, Mt. Hope Rebekah Lodge, Knights of Pythias and Knights of the Golden Eagle. In politics he was Independent.

He married Flavilla Ella Bennett at the home of his daughter, Mrs. Don S. Smith of Auburn. The widow and daughter survive him, also a father, one sister, Mrs. Carl Farrar, of Norway, and six brothers, Howard Allen of Albany, Fred Allen, Harville Allen and Winfield Allen of Norway, Wallace Allen and Arthur Allen of Auburn.

Mr. Allen was taken sick in May and was six weeks at the hospital. He had six operations of the bone of the leg at one and one at the hospital.

The funeral was from the Methodist Episcopal church at Norway, Saturday, Feb. 20th, at 1.30 p. m., the Masons being in charge. Rev. H. L. Nichols was the officiating clergyman. The church choir sang "Safe in the Arms of Jesus." The bearers were Charles Akers, T. B. DeCoster, D. M. French and A. L. Pike. Burial in Pine Grove cemetery.

The executive committee of the W. R. C., 45, met at the home of the chairman, Mrs. Jennie Richardson, on Saturday afternoon, Feb. 20th, to complete the arrangements for the town meeting dinner which will be given in the Woodman Hall over Stone's Drug Store, for the benefit of a Soldiers' Monument. Masquerade Ball.

The Masquerade Ball, which was held at the Opera House Tuesday evening, Feb. 23, was a grand success.

The gallery was filled and a good crowd was waiting to dance when the orchestra struck up the first dance.

Uncle Sam was in the box office to welcome the crowd. Many different costumes were worn by the gentlemen. The ladies were practically all masked, including four little tots, clowns, Greek and Turkish gowns, Fairies, four girls as a pack of cards, night, morning, Western girl and a Red Cross nurse in case of emergency.

The management was much pleased with the delegation from South Paris. The Abigail Waldman Chapter, D. A. R., furnished music. A good surprise awaited the dancers when seven pieces started the music instead of five as was advertised.

The advertising on the stage in the form of decorating was quite an attraction—the Paris Home Bakery advertised White Satin Bread, upon banners which made the fence-work across the front of the stage. The Norway Bakery advertised Howe's Domestic Bread, and gave a very pretty effect. The Royal Order of Moose, which will be installed in Norway March 4th, had a very neat sign which was hung among the drops of the stage.

A Challenge.

The local basketball team has received a challenge from the Abbott school of Farmington to play another game. The first game resulted in a tie, and the second game, which was held at the home of the Abbott team, was won by the Abbott team, 11 to 10.

It is understood Norway people are favorably inclined toward accepting the challenge.

"I tried many remedies, but got no relief until I began using Doan's Kidney Pills. Two boxes helped me in every way. I also wish to say that Doan's Kidney Pills cured my little son of kidney weakness and improved his health. You may continue to publish the statement I gave in praise of Doan's Kidney Pills some years ago."

Effect of Great Kidney Remedy is Soon Realized

I feel it my duty to let you know what Swamp-Root did for me. I was bothered with my back for over twenty years and at times I could hardly get out of bed. I read your advertisement and decided to try Swamp-Root. Used five bottles, and it has been five years since I used it, and I have never been bothered a day since I took the last bottle of it. I am thoroughly convinced that Dr. Kilmer's Swamp-Root cured me and would recommend it to others suffering as I did. My husband was troubled with kidney and bladder troubles and he took your Swamp-Root and it cured him. This was about five years ago.

You may publish this letter if you choose.

Very truly yours, MRS. MATTIE CAMPFIELD, R. F. D. No. 3, Gobleville, Mich. Subscribed and sworn to me before me this 13th of July, 1909.

ARVING W. MYERS, Notary Public, for Van Duren Co., Mich.

Children's Column.

Bethel, Me., Feb. 22, 1915.
DEAR EDITOR:—I will write about my school at the village. My teacher's name is Blanche Richardson from the Steam Mill. I like her very much. She was good to me. I learned to march and sing. I studied reading, spelling, arithmetic, history geography. I will send you my song that we sang in the morning:

Morning Song.

Father we thank Thee for the night,
And for the pleasant morning light,
For rest and food and loving care,
And all that makes the day so fair.
Help us to do the things we should,
To be to others kind and good.
In all we do in work or play,
To grow more loving every day.

So good bye,

The Return of the Small Store

So long have we been told that big business is killing little business that it is rather startling to hear that just the reverse is now the case. The rise of the big modern department store seemed to presage the end of the little shop. We have held to the idea that it was inevitable that a few big concerns would sweep the field clear of many little concerns.

But the shop that makes a specialty of one thing—hats, coats, gowns, furs, shoes, stationery, etc., is exerting an exceedingly strong pull, especially with the exclusive trade. Some daily papers complain that this competition of the little shop with the big department store has resulted in increased advertising on the part of the department stores amounting to hundreds of thousands of dollars annually.

Some things are so subject to the natural law of supply and demand that no government can altogether overcome, by artificial barriers or restrictions, this elemental limitation. Germany, the most paternal of governments, is now discovering that she cannot altogether regulate the price of foodstuffs, even in war time.

We have no laws discriminating in favor of big stores and against little ones, or vice versa. People buy where they can get the most satisfactory service, and women, who compose the larger proportion of shoppers, have decreed the popularity of the specialty shop.

DON'T DIVORCE INTEREST FROM WORK.

In the first weeks of a new year the woman who works for a living should take stock of herself mentally and make several solemn pledges to herself. No one of us is so perfect that there is no room for improvement.

"Each and every one is subject to some fault and during the new year a valiant effort should be made to overcome it."

Make up your mind that in the future you will adopt this viewpoint:

To be interested in work, in every small detail of it, and not to look down on any task connected with it, no matter how small.

If the majority of business women stuck to this through the year not only would they themselves be far happier than they have been in the past, but their work would not suffer as it does in many cases today.

For women are vitally interested in the work to which they devote the largest part of the day. Of course they go through with certain tasks, get through with their amount of work, but their actual interest in the work is comparatively small.

Too many women look at their work merely as a makeshift, as a means of providing themselves with a living and nothing more. Now this attitude is a tremendous drawback to their work, and it is a maintained real advancement can ever result.

The business woman must look upon her work, no matter what its nature, as the most interesting and vital thing in her life. She must look on all sides of her work with an interest which is not Work of any kind is interesting if it is led in the right way, and the minute one begins to lose interest in one's job then not only the work but the worker suffers.

For there is nothing more tiresome than to spend eight or nine hours each day at a task which does not stimulate one's interest, to which no intelligence and little thought is brought.

The habit of belittling one's work and looking down upon its importance is a bad one which no woman who wishes to be a success should encourage. Every small detail of one's work is important and should be done to the best of one's ability, for the little tasks well done make a complete and efficient whole and a big thing cannot be accomplished successfully unless one knows first how to do the little things.

Another resolution which the majority of business women might make to their advantage is to become interested in some thing or things outside of their own line of work.

To concentrate on a single subject is apt to make one narrow and selfish. The woman who is so interested in her work that she fights against it, should read the daily papers carefully, should be able to converse intelligently upon the topics of the day, should take more than a passing interest in the problems now facing this and the various European nations.

In this way she keeps abreast of the times, is alive, alert and intelligent.

All business women should preserve their health and cultivate perfect physical well being. Without health the work she may accomplish is of small value. Daily hours and plenty of exercise are essential to well being, and no wise woman neglects these two important points.

GYPSY AND BROWN-TAIL MOTHS DECREASING.

Satisfactory Progress in the Fight Against These Pests Reported by the Bureau of Entomology.

A marked decrease in the number of both the gypsy and brown-tail moths is reported by the Bureau of Entomology of the U. S. Department of Agriculture to have taken place in the period covered by the report, recently published, of the work for the year ending June 30, 1914.

This has been largely brought about by the wilt disease and the parasites and which have been introduced to fight them.

In New England, where the gypsy moth work around the borders of the isolated region has resulted in the discovery of the existence of the gypsy moth in Hampshire, 7 in Massachusetts, 17 in Rhode Island and 17 in Connecticut.

On the other hand, eight towns in the infested area were found to be quite free. Several isolated colonies in Greenfield, Mass., appear to have been exterminated, and in the region around Lenox, Stockbridge and Great Barrington the moths have also been almost eliminated. This is also true of the isolated colony at Wallingford, Conn. At Stonington a few egg clusters were found, and the Connecticut authorities are in charge of the work there.

In New York a colony at Geneva apparently has been exterminated, and a colony found on a private estate at Mount Kisco is now being stamped out with the cooperation of the New York authorities.

The report calls attention, however, to the needs for laws in other States similar in character to that of Massachusetts, which provides that each municipality must do its share toward controlling the moths.

The brown-tail moth situation is said to be even better. The severe winter has aided the brown-tail moth by bringing the imported parasites in bringing about an enormous decrease in the number of this pest.

In the northern part of the infested region in Maine, New Hampshire and Vermont, the decrease is especially noticeable. On the other hand some brown-tail moth nests have been found on the eastern end of Long Island.

The inspection of all forest products regions to other parts of the United States is declared to have prevented the establishment of many colonies in wide areas where they have been inspected, 4,253 specimens of the gypsy moth and 1,404 specimens of the brown-tail moth have been destroyed. It is claimed that this work had been begun years ago if the small colonies in New York, Ohio and the Berkshire region of Massachusetts would not have become established.

In addition to the quarantine work, scientific experiments and investigations are being carried on with the objects of securing more exact information about the food habits of these moths in order to discover new ways of exterminating them.

Truth.

"How vivid yer like ter be a millionaire?"

"Dat wouldn't be in my line. De feller vot's got so much money dat he neidin' work is de one dat does de most."

Those who have been coddling along pullets through the fall and early winter, are now receiving their rewards. As the days grow longer the ambitions of the biddies to lay eggs gets stronger.

ONLY A COLD.

"Oh, it's only a cold!"

Every winter we hear these words a dozen times or more offered in excuse of almost anything, in reality, is of a serious nature and worthy of some consideration from a reputable physician.

"It's only a cold," we say and dismiss this unpleasant affliction which is apt to attack us one and all during the cold weather months as something far too trivial to be considered in the light of a real sickness and certainly not sufficiently dangerous to require a doctor's attention.

But is a cold a trivial matter, to be treated by a series of patent medicines or disregarded altogether until its development into a serious sickness demands our tardy attention?

Decidedly no! It is a disease which should be treated as such—not as a mere indisposition. It may be anything from a mere inflammation of the nasal passages to the insidious stages of chronic catarrh, pneumonia, tuberculosis, tonsillitis, bronchitis, diphtheria, or complications and other illness of an equally serious nature.

To say that one or all of the diseases are the usual sequel to a cold is of course nonsense. But if the much despised cold is neglected, if it is slighted and dismissed as a mere indisposition, then any one of the above mentioned diseases is quite likely to result.

Sensationalism as applied to medicine is to be deplored, but a cold is a real disease and should be treated as such. Use common sense when you feel a victim to this very common and very unpleasant illness.

An ounce of prevention is worth a pound of cure as applied to a cold. Once you have caught the germ you are in for it, but look out that you don't catch the insidious bacilli which cause you to sneeze and sniffle, give you a headache and make you feel generally miserable.

Colds are the easiest of all diseases to catch. They are highly contagious and can be transmitted by a person thus afflicted to hundreds of others. Therefore, the victim of a cold is more dangerous to your health than the man or woman who is suffering from scarlet fever, measles or cholera.

Protect yourself from contagion, first by keeping away from those afflicted with this disease—arms' length is considered a sufficient distance; second, by keeping your hands away from the mouth and nose, and third, by doubling these precautions whenever there is an epidemic of colds.

We all carry about with us at all times germs in our mouths which may develop into a cold at any moment. When we are in good condition we are able to resist these germs, but once we become run down they become more highly developed, assert themselves, and before we know it we are down with a cold.

One of the greatest enemies of the cold is fresh air. Few of us take enough oxygen into our systems, and fewer of us let sufficient fresh air into our houses.

The steam heated apartment is responsible for the greatest number of colds. The man or woman who lives largely out of doors seldom falls a victim to this prevalent disease, no matter how cold the air, if it is fresh it will not do harm to those who breathe it. The dry, hot air of the steam heated apartment, on the other hand, is highly dangerous. Keep your room warm, but not hot. Air them frequently by opening up all the windows for a few minutes and changing the current of air. Also put upon the radiator a small dish of water. This will take the dryness from the atmosphere and it is the dryness of steam heat which does so much damage to the human system.

Another precaution against taking cold is the drinking of a good deal of water. Might or ten glasses a day are not too many. These will help to keep the system clear, a very necessary thing if one wants to avoid a cold. Of course, daily exercise in the open air is an essential, and this should be taken at night and in the morning—say, a 15 minutes' walk in the morning, the same at noon, and half an hour's brisk stroll before coming home.

If these precautions are adhered to there will be slight danger of catching a cold.

Beautifying the Home.

It is generally conceded that many farm homes are not as beautiful or as attractive as they might be. Notwithstanding the fact that most country places have an abundance of trees and shrubs and plenty of ground with which to work, they are to a considerable extent lacking in beauty and artistic arrangement.

The average man feels that he has no time for such work and is inclined to think that money spent for landscaping is only a little better than waste. His buildings are usually arranged for convenience and little or no attention is given to the beauty of the place. This is a condition that should be remedied. In the first place, the time and labor needed for

SOUTH WATERFORD.

W. H. Haynes. Passed to higher life very suddenly at his home in South Waterford on Saturday, the 13th inst., Wm. H. Haynes, aged sixty-three years.

He had been in his usual, though not robust health during the winter and attended to his daily work on the day immediately preceding the evening of his passing away.

His daughter, Mrs. C. D. Tarbox (with her two children) had been at the old home during the week, and after enjoying the prattle of the children and reading during the evening with her before others of the family. Shortly after, upon hearing an unusual sound from his room his wife hastened to him, but even then the spark of life had fled.

It thus ended a life on earth as he had often expressed the wish that it might in his case.

Funeral services conducted by L. F. McKenney were held at the home on Wednesday, the 17th inst., which were simple but very impressive, and attended by a large number of relatives, neighbors and friends. Bear Mountain grange was represented in a body which performed escort duty to the last resting place in Elm Vale cemetery of an old and highly esteemed brother member of the order. The bearers were C. P. Biggs, Geo. A. Miller, C. E. Packard, Geo. L. Hilton. There was a profusion of flowers about the casket which fully attested the love and friendship of many.

Survivors—Mrs. W. H. Haynes, Wreath of roses, Father—Mr. C. D. Tarbox, Harry. Bouquet pink and evergreen—Carrie Hamilton.

Flowers—Mr. and Mrs. J. F. Howard, Pinks—Mr. and Mrs. S. J. Mason, Pinks—Mr. and Mrs. C. E. Packard, Pinks—Mr. and Mrs. E. P. Kimball, Mr. and Mrs. J. L. Merrill.

The subject of this brief sketch was born in Waterford, Feb. 11th, 1852, the son of William and Mary Jane (Hoyt) Haynes and has always been a resident of the town of his nativity, and in his passing, Waterford loses one of her old and highly esteemed citizens—a man of sterling worth, whose word was as good as his bond, scrupulously honorable in his dealings with his fellowmen, with an earnest desire to emulate the principle of the Golden Rule. He was keenly alive to the enjoyment and pleasure of others. A genial host, fond of company and always ready to join in the pleasures of old and young.

He married Jane Marr in 1874 and two children were born to them, Edna, who married C. D. Tarbox of Harrison, and Harry N., living at home, who, with the wife are left to mourn the loss of a companion of a loving and indulgent father and husband, and the community will sadly miss the genial and hearty greeting of an ever faithful friend, neighbor and citizen. Besides the immediate family mentioned, Henry, living in Hornell, N. J., Fred B., living in Harmony, Maine, and a sister, Mrs. Jennie Hammond, living in West Medford, Mass., will mourn the loss of an affectionate brother.

BETHEL.

Nearly 50 Years in Service. After a faithful service extending over a period of 46 years in the railway service, the oldest railway mail clerk in Portland, Charles I. Kimball, of 219 Spring street, retired from active service on February 24 on the anniversary of his first run over the road.

Mr. Kimball was born in Bethel, where his father, the late Ira G. Kimball, conducted a general store. Going to Portland, he was appointed as one of the first railroad mail clerks and was given the run between Portland, Boston and New York.

From here he was soon transferred to the Grand Trunk, with a run from Portland to Island Pond, at the New Hampshire line, and return. The first ten years, he says, it was a rare thing to make a trip either way without turning off the track, but with the gradual improvement of the system the trouble gradually disappeared.

When the service was first established there were three men in a small car, with a small number of boxes for the mail, but at present eleven men are required to do the work and are provided with a 30-foot car, equipped with 360 compartments.

During his long service Mr. Kimball has lost but one trip from ill health in 46 years, and has helped to break in hundreds of employees of the railway mail. He is at present in rather poor health, from a nervous trouble.

A few of the neighbors of Rev. B. F. Fickett, who is confined to the house by illness, and Mrs. Scott Robertson, helped them to observe their birthdays, Feb. 22.

A cherry tree was decorated with fruit and left at Mr. Fickett's door, and later the party spent the afternoon with Mrs. Robertson, bringing with them gifts of fruit, cake, etc., which later was served with ice cream by the hostess.

Monday, Mrs. Robertson enjoyed a postcard shower numbering nearly 50 cards.

The following delegates from the Young Men's Christian League will attend the boys' conference at Portland: Harold Chapman, Robert Farwell, Edwin Wilson, Herbert Bean, Howard Tyler, Arthur Buck and Leander J. Anderson.

Helen Clark and Marjorie Allen combined their celebration of birthdays, which occurred Feb. 13 and 20, by entertaining the members of "The Social Set" and a few other friends Saturday afternoon, at home of Helen Clark.

A course supper was served, after music on piano and graphophone and games had been enjoyed.

John Coolidge recently shot a fine fox. Fred Chandler and daughter, Alice, spent Sunday with Mr. and Mrs. Frank Chandler.

A meeting was held Friday afternoon at the Black building in the interest of the children of the village. A poultry association was organized with Eugene Van Den Kirchhoven, pres.; Robert Hanscom, treas.; and Pauline King, sec. The plans for the potato club were postponed till May.

Middle Intervale.

Several farmers here are using oxen to haul wood with which we think one of the most sensible things can be done. We never knew so busy a time here, cutting and hauling wood, cord wood, birch bolts, pine, long lumber and all woods. Some of it goes to Rumford Lumber Co., and some to Thurston's mill across the river and some to Springer's mill at Bethel Hill.

BUCKFIELD.

Murch-Gerrish. Horace Alden Murch of Buckfield and Christine Louise Gerrish of Lewiston were united in marriage at the bride's home at half-past twelve Tuesday noon.

Rev. J. G. Osborne, pastor of the Bates street Baptist church performed the ceremony using the double ring service. The bride wore a navy blue traveling suit, with waist of Copenhagen blue marquisette over chiffon.

The parlor was prettily decorated with fir and pink and white roses and the dining room with fir and jonquils by the Lewiston Corn Roasters. After the ceremony refreshments were served. The bride was generously remembered with presents of silver and cut glass and linen.

Saturday evening she was given a shower by the Corn Roasters at the home of Mrs. W. H. Hartshorn, College street, when she received other useful presents.

Mrs. Murch is the daughter of Mrs. F. H. Gerrish. Her early home was in Lisbon. She is a graduate of Lewiston High school and the O. M. G. Hospital training school for nurses. Mrs. Murch is a member of the Bates street Baptist church. Mr. and Mrs. Murch went directly to their home in Buckfield where Mr. Murch is in the granite and marble business.

CATARRH OF HEAD AND STOMACH

Took Peruna Five Bottles Cured Me

Mr. Frank Richter, No. 309 East Second St., Winona, Minn., writes: "My catarrh was principally located in my head and stomach. I tried many remedies without success. I tried several doctors, but they were unable to cure me. I read of Peruna in the papers, and five bottles cured me."

"As a remedy for catarrh I take pleasure in recommending Peruna for catarrh of the stomach. I know what it is to be afflicted with this awful disease and consider it my duty to say a word in behalf of the remedy which gave me such relief. Peruna cured me, and I know it will cure any one else who suffers from this disease. It gives me great pleasure to testify to the curative effects of this medicine. Peruna is a well tested and frequently used remedy, and for catarrh of the stomach it is unsurpassed."

As a rule, people when ailing apply very properly to a doctor before resorting to a ready-to-take medicine. The great majority are cured by the doctor. But a per cent of chronic cases fail to find a cure and at last begin to use ready-to-take medicines. It is very noticeable indeed the number of people among our testifiers who say that it was only after the doctor had failed to cure them that they were induced to take Peruna. Then they find to their surprise, to their joy, that Peruna is the remedy they should have taken.

The worst mistake in painting is not putting on a good primer. That costs you 10 percent of the cost of the paint. It would have to come down 25 percent to make 10 percent on the job. The worst mistake is cheap paint. It costs from 50 percent to 100, first cost, and another in wear.

Not Paint.

The worst mistake in painting is not putting on a good primer. That costs you 10 percent of the cost of the paint. It would have to come down 25 percent to make 10 percent on the job. The worst mistake is cheap paint. It costs from 50 percent to 100, first cost, and another in wear.
What a liar "cheap" is. "Put-off" is had enough; "cheap" is ten times worse.

Corn-Mad? Use "GETS-IT," It's Sure

Makes Corns Vanish Like Magic!

A hard cap of skin makes up every corn. When you put 2 drops of "GETS-IT" on it, it shrivels up and comes right off—and there's your corn—gone by thunder! Simple as taking off your hat! That's

Don't Waste Time "Hollering." "GETS-IT," World's Simplest Corn-Cure, Never Fails.

Why corn-millions have gone wild over "GETS-IT"—nothing like it ever known. Some folks, to this day, putter around with bandages, sticky tape, thick plasters, corn "pulling" salves, gouge corns out with knives, snip them with scissors, make them bleed and then howl because they can't get rid of sore corns. Use "GETS-IT." There's nothing to do but apply 2 drops. The work is done. "GETS-IT" does the rest. No pain, no fussing, no changing shoes, no limping. It never fails. Try it tonight for any corn, callus, wart or bunion. Be sure that you get "GETS-IT" and nothing else.

"GETS-IT" is sold by druggists everywhere, 25¢ a bottle, or sent direct by E. Lawrence & Co., Chicago.
